Re: Docket No. RU00000A-14-0014 (Water Utilities Rulemaking)

Dear Mr. Olea:

Arizona Water Company ("Arizona Water") submits the following comments to the Arizona Corporation Commission's proposed rule A.A.C. R14-2-2201, concerning a public service corporation's release of customer information. Arizona Water provides water service in areas that have either a municipal or Arizona Corporation Commission regulated sewer provider. Many of these sewer providers have sewer rates based on water use and meter size and have requested private customer information to allow them to bill their customers. In order to provide private customer information for sewer billing purposes, Arizona Water proposes that an amendment should be made to the proposed rule, which will allow water utilities to share private customer information with sewer providers for the purpose of rendering a sewer bill, with provisions similar to those in the proposed rulemaking concerning confidentiality.

Please feel free to contact me, or to have anyone from your staff contact me, to discuss Arizona Water's comments or any questions about them that you may have.

Very truly yours,

William M. Garfield  
President
